Audience

- ESG and Sustainability professionals
- CSR and Sustainability professionals
- Business Analysts
- Entrepreneurs
- AI and Data Analysts
- Academicians
- Consultants

Outcome

- Understand ESG and sustainability frameworks
- Apply AI in environmental, social, and governance domains
- Build AI-driven ESG dashboards and scoring models
- Use AI tools for climate modeling, audits, and compliance tracking
- Implement responsible AI practices within ESG projects

Course details

This course explores how Artificial Intelligence is reshaping the landscape of sustainable development. Learners will gain insights into how AI technologies are applied to solve real-world challenges in environmental protection, social responsibility, and corporate governance. Through practical examples, case studies, and hands-on tools, the course equips participants with the knowledge to harness AI for driving impactful ESG strategies, ensuring both organizational resilience and long-term sustainability.

Course Introduction

This course explores how Artificial Intelligence is reshaping the landscape of sustainable development. Learners will gain insights into how AI technologies are applied to solve real-world challenges in environmental protection, social responsibility, and corporate governance. Through practical examples, case studies, and hands-on tools, the course equips participants with the knowledge to harness AI for driving impactful ESG strategies, ensuring both organizational resilience and long-term sustainability.

AUDIENCE

- **ESG and Sustainability professionals**
- **CSR and Sustainability professionals**
- **Business Analysts**
- **Entrepreneurs**
- **AI and Data Analysts**
- **Academics**
- **Consultants**

OUTCOME

- **Understand ESG and sustainability frameworks**
- **Apply AI in environmental, social, and governance domains**
- **Build AI-driven ESG dashboards and scoring models**
- **Use AI tools for climate modeling, audits, and compliance tracking AI and Data Analysts**
- **Implement responsible AI practices within ESG projects**

Course Modules

Foundations of AI

- What is Sustainability? (Brundtland + SDGs)
- Overview of ESG Frameworks (ESRS, GRI, SASB)
- Basics of AI: ML, NLP, CV, etc.
- Role of AI in sustainable development

AI for Environmental Impact

- Smart energy & emissions management
- Climate modeling & satellite AI
- Waste tracking & circular economy
- Tools: Google Earth Engine, NOAA examples

AI for Social Sustainability

- AI for education & healthcare access
- Bias mitigation & algorithmic fairness
- AI for accessibility
- Case Studies: BenevolentAI, pandemic response

AI in Governance

- Responsible AI principles
- AI in regulatory compliance (e.g., GDPR)
- ESG scoring and analytics
- Ethical dilemmas: Surveillance & digital colonialism

Capstone & Tools

- Hands-on with TensorFlow, Hugging Face, Earth Engine
- Explore innovation pipelines in ESGAI
- Capstone: Design an AI-based ESG solution

ABOUT IICSR

Founded in 2010, the IICSR Group has established a distinguished legacy in sustainability education, biodiversity conservation, and women's empowerment initiatives. Its programs are accredited by the American Council of Training and Development (ACTD), the Management & Entrepreneurship and Professional Skills Council (MEPSC)—a sector skills council under the Ministry of Skill Development and Entrepreneurship, Government of India—and the European Association of Higher Education Advancement (EAHEA).

IICSR and Sustainability Knowledge Management Pvt. Ltd. stand today as a premier institution for capacity building, project advisory, implementation, and research in Responsible Business Leadership, with a focus on CSR, Sustainability, and ESG. With more than 5,000 mid- and senior-level executives trained across the APAC region, IICSR continues to advance rigorous, practice-oriented learning and high-impact sustainability outcomes. The institution maintains registered entities in both India and the United States, reflecting its expanding global footprint.
