# NextGen Faculty Development Master Class

By Global Technology Experts & Innovation Leaders

# NextGen Faculty Development

*An advanced master class for faculties to transform them as NextGen Leaders*

We as IT Industry experts trained, transformed and connected with several faculties, colleges & universities across the globe, so we know their situation and the challenges they face.

## As a Faculty, I want to know:

- ❖ Where can I seek the right guidance to get practical and real IT Industry experience?
- ❖ How do I become smart IT professional to deliver value to students?
- ❖ Where is the IT industry going and how it is relevant to faculty and students?
- ❖ What type of modern technology trends are there?
- ❖ What and how exactly major and complex projects are executed in IT industry?
- ❖ How do we explain the syllabus content with real world examples?
- ❖ How can we innovate to improve the performance of the students and college?
- ❖ How do I get real hands-on experience while I am teaching?
- ❖ How do I get the best opportunities to work on Industry projects while I am teaching?
- ❖ There are so many certifications, which is best for me as a faculty?

And many more of such challenges are being faced by faculties worldwide.

# Why this Master class ?

2022

Software is the backbone of every company or organization in every sector. For example, Manufacturing, Healthcare, Finance, Government (public sector), Education, Information Technology, Chemical and all other sectors are leveraging software to perform operational, transactional and analytics activities to drive their businesses.

Change is constant. Both Innovation and Transformation are the need of the hour for modernization otherwise you will be outdated soon.

NextGen Faculty Development Master class is an advanced program to transform the faculty to a Modern and Smart Leader to address the students needs in an effective and better way and perform innovations to continuously improve the performance of self, student and your college.

# NextGen Faculty Development
