Course Overview

Game Development Mastery Program

12 Weeks | Mentor-Led | Limited Seats

Take your first serious step into the game industry with our flagship program designed to help you learn, build, and break into the world of game development. Whether you're an aspiring designer, programmer, artist, or producer — this course will help you master real skills through expert mentorship, hands-on projects, and industry insights.

"We created this program because India needs more builders in the gaming space, not just players." — Founders, Game Insider

Course Price - ₹35,000 + GST

Course Format

- 12 Weeks of Structured Learning
- Live mentor-led sessions by experts from Ubisoft, Garena & other leading studios
- Interactive Assessments & Mentor Feedback
- Group Quests and Weekly Peer Discussions
- Capstone Project to Identify Your Specialization
- Specialization in: Game Design, Programming, Art, AI, Marketing, Production and More

Course Curriculum

Phase 1: Foundations

Module 1: History, genres, platforms & the game dev pipeline

Module 2: Understanding roles & real-world team dynamics

Module 3: Game design fundamentals, systems & UI/UX

Module 4: Intro to programming, engines, and prototyping

Module 5: Multiplayer & AI systems

Module 6: Game art & animation pipelines

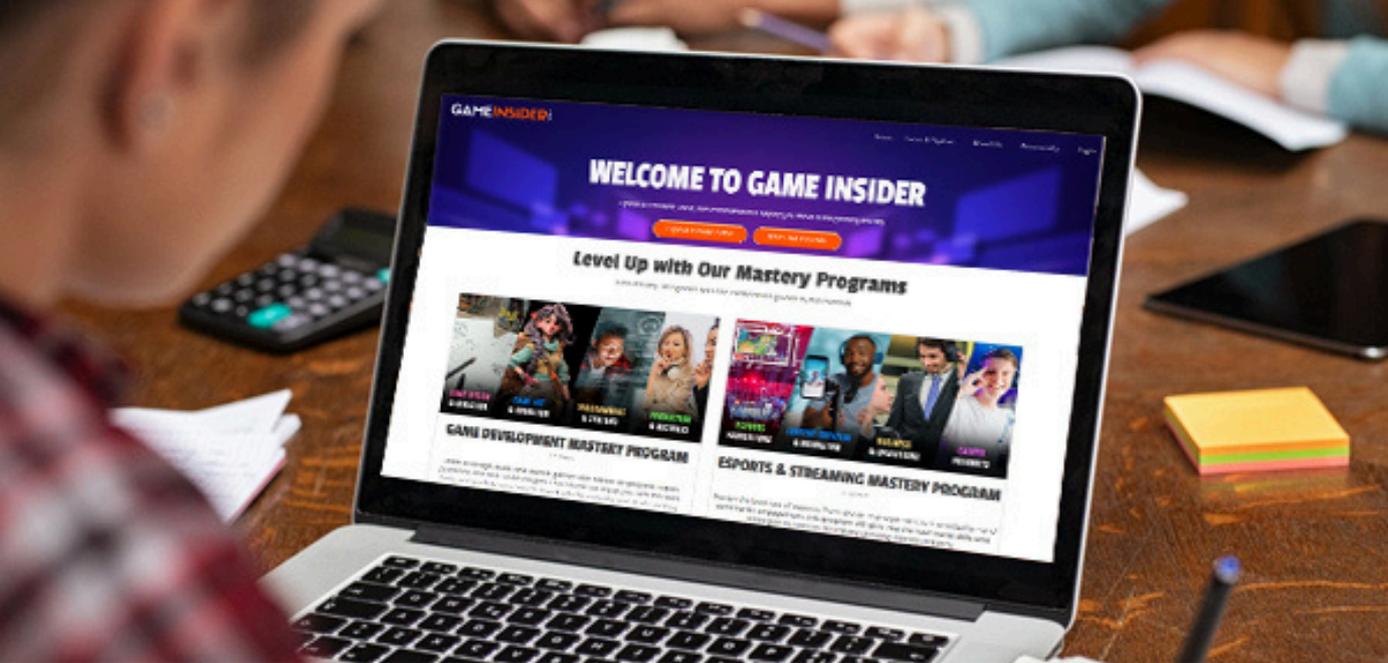

Module 7: Sound design & audio tools (FMOD, Wwise)

Module 8: QA & Game Testing

Module 9: Game Production, Tools & Leadership

Module 10: Monetization & Business Models

Module 11: Game Publishing, Marketing & Live Ops

Phase 2: Capstone Project

Develop a game concept document, present a creative pitch deck summarizing how the game could be developed (high-level art, design, tech, and testing approach) and reflect on your chosen specialization, explaining the role you want to pursue and why.

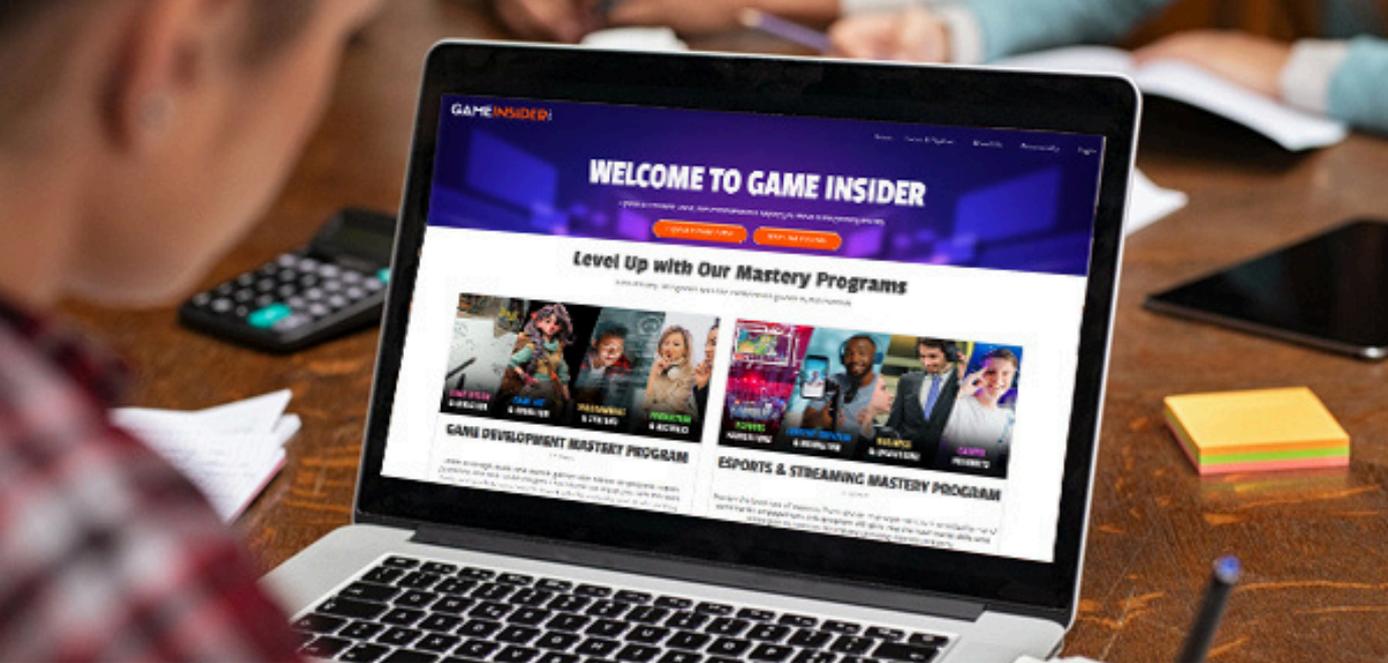

Program Experience Highlights

- Live Mentor Sessions & Expert Insights
- Community Sessions & Events
- Quizzes & Gamified Learning
- Guidance & Support Hub (via Discord)
